IV. RESPONSE INFORMATION

A. Planned Removal Actions

See Previous Polrep

B. Situation

1. Current Situation

The PRP's have completed the removal and cleanup activities at the PVO site. All hazardous and non-hazardous materials have been shipped off site and transported to a RCRA/CERCLA approved TSDF. The PRPs maintained 24 hour site security throughout the entire cleanup.

2. Removal Activities to Date

Removal activities began on November 21, 1994 with the majority of chemicals being removed from building 65. Nearly 200 containers of different sizes were packaged and shipped off-site during the week of December 9, 1994. In addition 4,800 gallons of fatty acid derivatives were transported to a TSDF.

Removal activities continued on December 16 & 23, 1994 with approximately 82 various sized drums and labpacks of solid and liquid wastes transported off-site to a RCRA/CERCLA approved TSDF. The removal action was completed in early February with the removal of 1 methyl chloride cylinder.

On March 28, 1995 as per the AOC, the final site inspection was conducted by EPA. All work under the AOC was completed and a letter to the PRP's notifying them of this will be forthcoming.

3. Enforcement

The AOC was signed on September 30, 1994 and to date the PRPs have complied with all cleanup requirements under the order. Cost recovery will be pursued at a later time.

C. Next Steps

A letter to the PRP's notifying them that they have complied with all requirements under the AOC will be sent out shortly by EPA.

D. Key Issues

None at this time.

V. COST INFORMATION

The following information is estimated costs for the removal action as of April 4, 1995:

	Project Ceiling	Costs to Date	Costs Remaining
ERCS	\$216,000	\$ 35,377	\$180,623
TAT	\$ 72,000	\$ 50,000	\$ 22,000
EPA	\$ 60,000	\$ 18,000	\$ 42,000
Total	\$348,000	\$103,377	\$244,623

The above accounting of expenditures is an estimate based on figures known to the OSC at the time this report was written. The cost accounting provided in this report does not necessarily represent an exact monetary figure, which EPA may include in any claims for cost recovery..
